

Projects over the last two years include:

- Community centers
- New school classrooms
- Health clinics

The Rio Bravo Clinic was a 2002 project. This clinic services 9 urban neighborhoods, providing them with clinical treatment and a health promotion program. The staff members treat each patient with gentle, loving care.

CUPS donors make buildings like this community center possible with monthly financial support. Many also travel to Mexico to work side by side with our neighbors south of the border in realizing their dreams.

Founded in 1989, CUPS has developed lasting relations with many Mexican communities. CUPS is governed by a Board of Trustees and is a 501 c (3) organization. Our financial support comes from individual supporters, churches, and other organizations.

THE 300 CLUB

Comunidades Unidas Pro Salud.....

- is an ecumenical Christian organization
- unites Mexican and U.S. communities
- seeks to facilitate healthy border communities
- offers churches and other organizations opportunities to serve

Our mission is to improve the quality of life in border Mexico along the Texas-Mexico border through community based health and education projects.

We collaborate with Mexican communities on their prioritized needs to build community centers, health clinics, classrooms, drug rehabilitation centers, and other community defined projects.

The activities are overseen by a U.S. based program director and Mexican based builders.

CUPS provides a rich cross-cultural exchange that blesses all that become involved.

To further its mission, the Board of Trustees of CUPS proudly sponsors the 300 Club campaign.

Our goal is to obtain commitments of \$300 annually or \$25 monthly from *at least* 200 people for an annual total of \$60,000.

In this manner, you are afforded the opportunity to collaborate with CUPS and the Mexican border communities which we serve.

*Make a difference. Share God's Love.
Please consider pledging today!*
